Subject: Re: Website

Mr. Preston,

I am in receipt of your "cease and desist" request. would you please tell me who it is that you represent and what your relevant title and authority is? I have received other similar emails from people who, like you, do not properly identify themselves or their standing in this matter.

"standing" is a legal term, meaning that you personally (or the company which you RIGHTFULLY represent) has been harmed by the party you wish to sue. For instance, if you are claiming "damages" and want money as a remedy to those damages, you have to show that you have lost money as a result of my site. In this regard, you have no "standing". And certainly, if Russ Preston is not an official officer/employee of the corporation so offended, he has no standing in this matter, either.

Sincerely,

Jen Chambers
